NVivo10 Training

Dr Husna Razee will be running a number of NVivo10 training workshops which include some basics of qualitative data analysis process together with the skills of using NVivo10 to manage and code data. The workshop is free for postgraduate research students enrolled in SPHCM. Others will be required to pay. Please refer to the ‘Fees’ section below for more information regarding payment.

The training involves an initial 2 – 3 hour workshop and 3 or more follow up training sessions once some data has been collected. Participants in the training would work together at some points, providing a level of peer check which is one way of ensuring rigor of qualitative research.

There will be 2 different types of training held:

1. Introduction to NVivo10:

For those who are yet to collect data but will do so in the very near future. This will be a very brief introduction to NVivo10 and how the software can help manage your data. There will not be any hands on experience involved in this but will provide some useful tips in getting your transcripts and other data ready for NVivo10. It is preferable for you to bring a laptop with Nvivo10 installed and activated to this session, but not essential.

Please note if you have used NVivo before this WS is not for you.

2. Using NVivo 10 for Managing Qualitative Data:

For those who have already collected data (3-5 interview or field notes or focus group discussion) and have data available in the form of typed transcripts, field notes, photos, digital audio tapes etc., and are ready to start coding your data. This will take you through the various features of NVivo10 and will be done over maybe 3 sessions (3 – 4 hours per session) with you getting hands on experience in coding your data using NVivo10.

The sessions will be more than a week apart so that in between you can practice what you have learnt. This training will only be done in groups of maximum of 10. It is preferred to have groups working together as it also helps in doing “peer checks” of at least some of your data which is a way of ensuring rigor of your research. But this means there needs to be a willingness to share at least 2 – 3 interview transcripts with your colleagues and engage in that process of “quality control” and be willing to devote time to comment on your colleagues coding process. For this session it is essential you bring a laptop with Nvivo10 installed and activated.

Attendance at the first two sessions is ESSENTIAL.

Please note if you do not have at least 1 – 2 interview/focus group transcripts or field notes this WS is not for you.

For those paying for the workshop an additional 2 hour ‘one on one consultation’ will be provided once you have coded a reasonable amount of data and are ready for analysis and interpretation.
The 2014 training session will be run by Dr Husna Razee on the below dates:

1. **Introduction to NVivo10**

   **Semester 1**
   11am – 1pm, Thursday 20th February, Room 241, Level 2, Samuels Bldg, UNSW

   **Semester 2**
   Tuesday 3rd June, 10am – 12pm, Room 305, Level 3, Samuels Bldg, UNSW

   ***Possible additional Date:***
   Thursday 11th September, 10am – 12pm

   *This workshop will only proceed if there at least 10 participants. Please express your interest via email to resdegree-sphcm@unsw.edu.au*

2. **Using NVivo 10 for Managing Qualitative Data**

   **Semester 1**
   Session 1: 9am – 1pm, Thursday 13th February, Room 241, Level 2, Samuels Bldg, UNSW
   Session 2: 9am – 1pm, Thursday 20th March, Room 241, Level 2, Samuels Bldg, UNSW
   Session 3: 9am – 1pm, Thursday 17th April, Room 241, Level 2, Samuels Bldg, UNSW

   **Semester 2**
   Session 1: 10am – 1pm, Thursday 31st July, Room 241, Level 2, Samuels Bldg, UNSW
   Session 2: 10am – 1pm, Thursday 28th August, Room 241, Level 2, Samuels Bldg, UNSW
   Session 3: 10am – 1pm, Thursday 25th September, Room 241, Level 2, Samuels Bldg, UNSW

   **NOTE:** There are limited spots available in the second session “Using NVivo 10 for Managing Qualitative Data” (maximum of 10 people).

**Please note if you are not staff or a student of the School of Public Health & Community Medicine the following fees will apply:**

- Introduction to NVivo10 - $200 (1 x 3hr workshop)
- Using NVivo 10 for Managing Qualitative Data - $500 (3 x 4hr workshops)

If you would like to attend the training please complete the registration form and return to resdegree-sphcm@unsw.edu.au

Many thanks.
